

# VILLAGE OF HILLSIDE

## PLUMBING GUIDELINES

**All plumbing work must have a permit.**

The Village of Hillside follows the most current Chicago Plumbing Code.

### SINGLE FAMILY/RESIDENTIAL

**Under Ground:** 4" cast iron, drainage, waste, vent, known as DWV.

**Above Ground:** Copper, PVC, galvanized, cast iron.

- Copper must be Type M or better.
- DWV Copper is **NOT** allowed.

### COMMERCIAL BUILDINGS

**Under Ground:** 4" minimum cast iron, drainage, waste, vent.

**Above Ground:** Copper, galvanized or cast iron.

- PVC is **NOT** allowed in **ANY** Commercial Buildings.

### OTHER PERTINENT REQUIREMENTS:

1. **Wet vents** are not allowed. Residential dishwashers must use Wye Tailpiece. Dishwasher discharge cannot hook up to disposal.
2. **Lawn Sprinkling Systems** must have an approved R.P.Z. device. All devices must be certified and inspected when installed and every 12 months thereafter.
3. **Homeowners** may do their own plumbing, but must follow the current codes.
4. **Commercial buildings** must use an Illinois licensed plumber, registered with the State of Illinois.
